

THE ONLY POS TO OFFER

Sales Tracking

Track all the sales for your business in real time so you can keep your business growing and thriving.

Inventory Management

Closely monitor your inventory so you can supply your customers with everything they count on you to provide!

QuickBooks Integration

Seamlessly move sales data into your QuickBooks account so nothing is lost in translation.

Consumer App

Allow your customers to purchase from home or office for delivery or in-store pickup!

E-Commerce Store

A complete digital strategy, right out of the box. Easily and fully integrate it with your inventory system.

FOR STORE MANAGERS

Increase Sales

Track and organize your sales, inventory and more so your efficiency increases and sales are never lost!

Drive Customer Loyalty & Satisfaction

When your system works this smoothly, more of your attention can be spent on making your customers feel right at home.

Sell More & Worry Less

When all your transactions are organized and monitored with our system, you never have to worry. No matter how many sales you put through our POS, we can handle it!

Sell as a team

Manage sales from multiple POS units in one easy-to-read location, so every member of your team is on the right page. No one misses a beat!

FOR BUSINESS OWNERS

QuickBooks App

Take QuickBooks with you. Track sales, organize expenses, send invoices, and more right from your device.

Upload Product Photos

Give your clients and sales staff a visual for your inventory with customizable product images for every listing.

Online System Access

Easily manage sales and all system information via our web portal so you hold all the power and the system works *for you*.

Keep Customer Records

Keep track of your customers' information effortlessly and keep it updated across your whole system in real time.

ADDITIONAL FEATURES

Multi-Location

Our specialized development allows you to manage large, multi-location users with ease.

Table Service

We offer customized features and a flexible interface so you can increase efficiency and accuracy in the front end and back of house.

Quick Checkout

Unmatched user-friendly technology that's easy to learn and use to maximize speed and service.

Payment Processing

Integrate your system with the payment processor of your choice, so you're getting the best deal on credit card transaction fees.
